

Deployment 55015_0911

(NDBC 55015 - Tasman Sea 1 - 1110 km ESE of Hobart)

Location

Latitude: -46.829

Longitude: 160.256

Depth: 5020 m

Ocean region: 2.4 - South Pacific Ocean

Time Span

Start Date: 2009-03-03

End Date: 2011-02-28

Notes

Data downloaded from http://www.ndbc.noaa.gov/historical_data.shtml

For tsunameter data from the NDBC (largely from the Deep-Ocean and Reporting of Tsunamis network), information regarding deployment and recovery dates is limited. Therefore, annual files of quality controlled data are initially concatenated for each station and plotted in order to identify the start and end times of each deployment. The data are segmented into individual deployment time series, so the deployment and recovery dates are assumed dates.

Raw NDBC data have varying sampling frequencies depending upon the operating mode (i.e. whether there is a tsunami alert). Standard operating mode (1) uses 15 minute spot values, mode 2 data consists of 1 min averages of 4X15 sec spot values and mode 3 is 15 second sampling. Mode 3 data were sub-sampled to the frequency of mode 1, but mode 2 data were not compatible and were treated as missing.

Raw pressures were obtained in metres from NDBC but had been converted from psia using a conversion factor of 0.67. The true conversion should have used 0.68947573, so to convert to mb, we multiplied by $102.9 = 0.68947573 / 0.67 * 100$.

Latitudes, longitudes and depths specific to this deployment were not available, so they are taken to be those shown for the latest deployment on webpage www.ndbc.noaa.gov/station_page.php?station=55015 as at 20/11/2014.

An offset of 508 bar was removed from the raw pressure data.

Possible effects of an earthquake off the coast of Chile can be seen in data for 28/02/10-01/03/10.

Channels

55015_0911 (Preferred Channel)

Parameter: pressure

Supplier

Address

Australian Bureau of Meteorology
GPO Box 1289
Melbourne VIC 3001
(700 Collins Street, Docklands)
Australia

Notes

Data were obtained via NDBC. However, instrumentation is owned and maintained by ABM.
